

Keyhole Door Track System

Installation Instructions

1. Tap shoulder rivets on mounting brackets into slotted key-holes on the track.

2. Now nail mounting brackets to track plank with ordinary ring shank nails. No lag-bolts needed.

3. Hook bottom lip of track cover onto mounting bracket, nail top in place above track plank.

1. Holes are drilled through the top rail of the door frame.

2. Cut-away photo shows how simply the Bolt-Thru Trolley Hangers goes into place after holes are drilled.

3. Up-down or in-out adjustments after hanging doors are easily made with just a pair of crescent wrenches.
